### High precision slitting/rewinding system for films and foils

Vertical duplex center slitler/rewinder with advanced operational functionality

**Applications:** Slitting and rewinding of a wide range of technical and sensitive films and foils

**Advantages:** Unmatched user friendliness compared to classic center slitler/rewinder. One-side operation. Interchangeable slitting options: razor in air, razor in groove or rotary shear depending on the materials' physical properties. Available as a duplex turret system. Compact design and small footprint combined with improved accessibility. Integrated control system with touch screen operation.

#### Specifications:

Unwinding	<ul style="list-style-type: none"> <li>Roll width: 1'000 mm</li> <li>Roll diameter: 650 mm max.</li> <li>Core diameter: 3" and 6"</li> </ul>
Slitting	<ul style="list-style-type: none"> <li>Slitting widths: &gt; 5 mm</li> <li>Technique: razor or rotary shear</li> <li>Material thickness: &gt; 1µm</li> </ul>
Rewinding	<ul style="list-style-type: none"> <li>Roll diameter: 320 mm (turret 250mm)</li> <li>Core diameter: 1" and 3"</li> </ul>
Main drive	<ul style="list-style-type: none"> <li>Speed: 500 m/min max.</li> </ul>
